**17 – 18 JULY 2017 | SPICE ARENA**  
PENANG, MALAYSIA

Organised By :

# PRECISION ENGINEERING ASIA

## THE ESSENTIAL SOUTHEAST ASIAN SHOWCASE OF PRECISION HIGH TECHNOLOGY FOR ADVANCED ENGINEERING INDUSTRIES.

Precision engineering is unique, an essential component for many high value manufacturing sectors such as the marine, aerospace, oil & gas and medical devices industries. It is the function that enables businesses to design and build the tiniest processors, the most advanced aircraft systems, the latest medical devices and the strongest oil industry drill bits.

Whether you are a visitor or an exhibitor, Precision Engineering Asia will provide you with sourcing and networking opportunities within your own sector, and also introduces you to new opportunities in industries using related technologies and services.

### BOOK YOUR SPACE NOW!

Precision Engineering Asia is about business - pure and simple! Showcase your technology and expertise to key attendees.

To save your time we provide you with fully equipped exhibition spaces by a custom ready-to-exhibit stand package\*. All stands are designed on a corner location offering you maximum exposure to your sales prospects.

Each ready-to-exhibit unit measures 3x3m. You may reserve more than one unit to create the stand size that you wish (max. 4 units)

*\*Ready-to-exhibit stand packages include a fashionable shell scheme system, white laminated wall panels, fascia board with your company's name and booth no., spotlights, reception counter, meeting table, 3 meeting chairs, waste bin and graphite grey carpet.*
